Women's Health Week

ANSWER

The Departments of Administration and Health Services have partnered to organize the 2011 Women's Health Week recognition for State of Arizona employees. During the Week of May 9th through May 13th there will be health expos, health screenings, and educational speakers at the State Capitol and all employees are invited to attend. Expos will be held 10am to 2pm at the State Capitol building on May 9th and 10th. Presentations on women's health specific topics will be given each day. Then, to end the week, on Friday a Celebration Walk has been organized that will start in Wesley Bolin and make a loop around the Capitol.

Please share this information with employees at your agency and go to the Benefit Services Division Website and click the Important Notice link to access a flyer with additional details.
