Walgreens Retail Stores - Pharmacy

ANNOUNCEMENT

Several ADOA Benefit Options members recently received a letter via U.S. mail from Walgreens regarding filling prescriptions under a prescription drug plan managed by Express Scripts. ADOA Benefit Options does not utilize Express Scripts to manage the pharmacy benefit. ADOA Benefit Options members are not the intended audience for the Walgreens communication. The intended recipients of that letter are members who may have had other coverage in the past and previously filled a prescription through a plan managed by Express Scripts (i.e., Tri-care, work-related injury claim through ADOA Risk Management).

Medimpact is the Pharmacy Benefit Manager for all ADOA Benefit Options health plan members and members will continue to be able to fill prescriptions at Walgreens Retail Pharmacies.
