

ARIZONA DEPARTMENT OF ADMINISTRATION
Benefit Services Division

IMPORTANT NOTICE

For Members that have prescription benefit coverage under both the State of Arizona and Medicare Part B and want to utilize the Walgreens Mail Order Program - Auto Refill option to receive some or all of your prescriptions through the mail.

Medicare does not allow members to set up pharmacy accounts that will automatically refill and send the prescription(s) at the appropriate time. If you are set up in the Walgreen system under both the State of Arizona and Medicare Part B, please note that your account will not allow for Auto Refill.

You will still be able to utilize the Walgreens Mail Order Pharmacy and receive your prescription(s) through the mail but the automatic refill feature will not be available. To continue receiving your prescriptions through the mail, you will now need to notify Walgreens at least 10 days prior to the prescription running out. You may request a refill on your prescription(s) order by going online to www.WalgreensHealth.com, requesting your physician mail or fax an order form to Walgreens Mail Service, or calling a representative at (1-866-304-2846).
