HSA Preventive Drug List

Preventive Drug List

Preventive Drugs are prescribed for people who are at risk for certain diseases but not yet showing signs and symptoms. They are used to prevent a disease or condition, a complication from a disease, or prevent a reoccurrence of a condition. They are typically not used to treat an existing illness. You will not pay the full cost of these drugs and the copays will not accumulate to meet the HSA deductible. Only the normal flat dollar copay will apply to these drugs as shown below.

Formulary Tier	Copays
Tier 1 - Generic	\$10
Tier 2 - Preferred	\$20
