

Identifying, Exploring and Challenging Thought Patterns That Lead To Weight Gain

It is estimated that we have somewhere between 50,000 and 70,000 thoughts per day, and more than likely we're not paying attention to all of them. In this session, we will learn how our thoughts have a large impact on every aspect of our lives, including our weight and health. Managing thought patterns is the first step to long term change.

In Identifying, Exploring and Challenging Thought Patterns, you will begin to:

- Have a basic understanding of how mindfulness effects weight
- Understand how thoughts influence weight
- Develop mindfulness strategies to challenging destructive thinking
