

# Understanding Emotional Eating and How to Free Ourselves From its Hold on Us

Everyone experiences difficult emotions at some point or another. Often, this can lead us to eating food to avoid being with those unpleasant feelings. It could be so normal that we don't even know we're doing it! In this session, we will learn how to increase our awareness of how we experience difficult emotions. This will allow us to pause the automatic response of eating to help determine what we truly need in the moment.

In Understanding Emotional Eating, you will begin to:

- Understand how mindfulness plays a role in weight management
- Identify automatic pilot reactions to emotions
- Learn a mindfulness practice to help identify and "be with" emotions

**July 19th 1:00 pm Arizona time**  
**July 27th 11:00 am Arizona time**

# Feeling Overwhelmed? Learn Mindfulness Skills to Stop "Auto-Pilot" Stress Reactions and Make Choices to Calm the Chaos

Life comes at us fast. When a stressful event approaches, we usually make an attempt to protect ourselves by reacting, though we usually don't notice the thoughts, emotions and sensations that are involved in our reactions. In this session, we will learn how mindfulness can help put some space between those stressful events and our reactions so we can turn off auto-pilot and react appropriately.

We cannot eliminate all stress, but we can more skillfully respond to it.

In Feeling Overwhelmed?, you will begin to:

- Have a basic understanding of mindfulness
- Understand the impact of stress on you and your productivity
- Integrate these practices in everyday life
