

Building Emotional Literacy to Transform Stressful Situations into Powerful Opportunities for Change

Your emotions can have a huge effect on your body and mind. Often times, “judging” or “pushing away” discomfort has a lesser affect than just “allowing” it or “letting be”. In this course, we will discuss and develop awareness of our emotions and their effects, and learn to integrate qualities of

acceptance to form the groundwork of making change.

In Building Emotional Literacy , you will begin to:

- Understand how thoughts influence emotions
- Identify emotions through the “exploring emotions” practice
- Experience consciously shifting attention during mindfulness practice
