

MedPerform – Preferred Drug List (PDL)

January 1, 2024

Benefit Options Formulary

The Benefit Options Formulary keeps prescription medications affordable. We monitor our formulary to make sure you receive the most clinically effective medications at the lowest cost. The formulary is updated regularly and is subject to change without advance notice.

Preferred Drug List (PDL)

The PDL is a list of commonly prescribed medications within select classes of drugs covered on your formulary. The list is developed and maintained by a committee comprised of physicians and pharmacists (the Pharmacy and Therapeutics Committee). Inclusion on the list is based on consideration of a medication’s safety, effectiveness and associated clinical outcomes. The PDL does not represent all preferred formulary medications available under your plan. For complete formulary information, visit the Benefit Options website by logging onto www.benefitoptions.az.gov and click on the Pharmacy tab and then click on the MedImpact Member Portal. For specific questions, please contact the Customer Contact Center at 1-888-648-6769. It is available 24 hours a day, 7 days a week.

Exclusions

Prescription medications that have over-the-counter (OTC) equivalents are not a covered prescription benefit. As new products are made available OTC, they will be removed from the formulary. Additionally, the formulary does not include the products listed below. **This list is not all-inclusive and is subject to change due to updates and availability of generic alternatives.**

| | |
|---------------------------------|---------------------------------------|
| All OTC products | Mifeprex® |
| Abortion pill | Nonsedating antihistamines |
| Vaccines and Immunizations | Nonsedating antihistamine combination |
| products Diagnostic products | Ostomy supplies |
| Drugs with cosmetic indications | Penlac® |
| Fertility drugs | Reusable needles |
| Impotency drugs | Reusable syringes |

How do I get the greatest benefit from my PDL?

- **Print out the Preferred Drug List and take it with you when visiting your physician.**
- Ask your physician to prescribe generic medications whenever possible. All FDA approved generic drugs are considered preferred medications and should reduce your copays.
- When there is more than one brand name drug available for your medical condition, ask your physician to prescribe a preferred drug listed on your PDL. This should also reduce your copays.

| PDL DRUG CATEGORY | GENERIC | PREFERRED BRAND | NON-PREFERRED BRAND | EXCLUDED |
|-----------------------|--|-----------------|---------------------|-----------------------------------|
| ALLERGY | | | | |
| NASAL CORTICOSTEROIDS | azelastine/fluticasone flunisolide fluticasone | Qnasl Xhance | | Beconase AQ Dymista Omnaris |
