This Patient Charge Schedule applies only when covered dental services are performed by your Network Dentist, unless otherwise authorized by Cigna Dental as described in your plan documents. Not all Network Dentists perform all listed services and it is suggested to check with your Network Dentist in advance of receiving services.

This Patient Charge Schedule applies to Specialty Care when an appropriate referral is made to a Network Specialty Periodontist or Oral Surgeon. You should verify with the Network Specialty Dentist that your treatment plan has been authorized for payment by Cigna Dental. Prior authorization is not required for specialty referrals for Pediatric, Orthodontic and Endodontic services. You may select a Network Pediatric Dentist for your child under the age of 7 by calling Customer Service at 1.800.Cigna24 to get a list of Network Pediatric Dentists in your area. Coverage for treatment by a Pediatric Dentist ends on your child’s 7th birthday; however, exceptions for medical reasons may be considered on an individual basis. Your Network General Dentist will provide care upon your child’s 7th birthday.

Procedures not listed on this Patient Charge Schedule are not covered and are the patient’s responsibility at the dentist’s usual fees.

The administration of IV sedation, general anesthesia, and/or nitrous oxide is not covered except as specifically listed on this Patient Charge Schedule. The application of local anesthetic is covered as part of your dental treatment.

Cigna Dental considers infection control and/or sterilization to be incidental to and part of the charges for services provided and not separately chargeable.
This Patient Charge Schedule is subject to annual change in accordance with the terms of the group agreement.

Procedures listed on the Patient Charge Schedule are subject to the plan limitations and exclusions described in your plan book/certificate of coverage and/or group contract.

All patient charges must correspond to the Patient Charge Schedule in effect on the date the procedure is initiated.

The American Dental Association may periodically change CDT Codes or definitions. Different codes may be used to describe these covered procedures.
